Francisco Iván San Segundo

SOFTWARE ENGINEER

About Me

Computer Engineer with a strong interest in learning new technologies. With a solid foundation built through hands-on project development, I am looking to apply my knowledge in a professional environment. I am recognised for my ability to manage tasks and meet objectives, while bringing fresh and creative ideas to a dynamic team.

Experience & Projects

NTT Data (Febrero 2026 - Julio 2026)

- ***Software Engineering Intern***

Integrated into the Systems Infrastructure and TelcoCloud teams. Deployed virtualisation platforms (SCVMM and Hyper-V) in laboratory environments, producing technical documentation and operational best practices. Conducted retrospective analyses of real-world incidents using SRE methodologies and observability tools.

University of Valladolid (2022 - 2026)

- ***Academic Projects in Software Engineering***

Developed multiple software and systems projects throughout my degree, applying software engineering principles in practice. Designed creative solutions and collaborated effectively in multidisciplinary teams to meet technical requirements and project milestones.

Education

B.Sc. in Software Engineering (2022 - 2026)

University of Valladolid

Cloud Infrastructure & Networking Training (2026)

NTT DATA University / Canal IT Pro

Technological Baccalaureate (2020–2022)

Colegio Filipense Blanca de Castilla - Palencia

Technology Stack

- **Development & Data: Python, FastAPI, React, MySQL, Git/GitLab**
- **Virtualisation & Cloud: OpenShift, OpenStack, SCVMM, Hyper-V**
- **Orchestration & Networking: Docker, Containerlab, Open vSwitch, Linux**
